

# Ointment

Skin Cool Ointment is a natural product, ready to apply to the skin and has been specifically designed to treat eczema in children and adults.

It contains a blend of pure essential oils reputed to help soothe and soften blemishes, ease itching and encourage the healing of skin.

## Ingredients

Lavender Oil, Fish Oil, Carrot Oil Sesame Oil, Thyme and other essential Oils.

## Symptoms

Dry, red, damaged skin, scaly which is often accompanied by small red spots.

Eczema or Dermatitis can affect the whole body but is most commonly found in specific areas such as the hands, feet, elbows, and knees. In adults, eczema can also affect areas such as the eyelids, neck and wrists. In children, the most common areas are the cheeks, chin, back, Stomach and arms.

## Applications

Use skin Cool Ointment for Eczema, Acne, Psoriasis and Chronic chapped skin or skin dryness. In mild to moderate forms the skin is dry, hot and itchy. Using twice daily the inflammation of eczema can be reduced substantially with no side effects, though the skin would always be sensitive to flare-ups and need extra care.

Skin Cool Ointment also works with Acne and Psoriasis particularly if they are mild to moderate stage of diagnosis. For more stubborn problems the application takes longer and would take up to 10 weeks for maximum effect.

## Other Properties

The Skin Cool Ointment has been found to alleviate a variety of skin conditions such as heat rash, minor burns, stretch marks, diaper rash, wrinkles and reducing skin discoloration. Also, it has got anti-fungal, anti-bacterial, anti-microbial as well as antiseptic moisturizing and hydrating properties. It is useful; to treat skin conditions on both Humans and animals
